HOME OWNER'S PLUMBING PERMIT

A permit may be issued to an owner/occupant of a single family dwelling. Minnesota Statute 326.40, Subd. 1 (1978). Before a permit will be issued, the homeowner must have the application approved by a plumbing inspector.

1. All work must be done by the permit holder.
2. An inspection by the plumbing inspector must be made on all piping before it is concealed by walls, ceiling, floors, dirt or concrete.
3. Plumbing installations may require air tests, which must be performed by the homeowner.
4. Final test and approval after fixtures have been installed must be received by this department before fixtures are used.
5. All extra inspections because of incorrect installations will cost \$42.00 per inspection.
6. It is the permit holder's responsibility to notify the plumbing inspector at 651-266-9005 during his office hours of 7:30 and 9:00 AM when ready for inspection.

=====
